

RNAV Revealed

For over a dozen years, pilots have used Area Navigation (RNAV) to fly direct, navigate more accurately, save time, reduce fuel expense and operate more confidently. But the technology that changed how you fly continues to evolve. Are you keeping up? In RNAV Revealed, we'll provide a refresher on some critical RNAV basics, reveal a few tips and tricks to help you get more from today's technology, and offer you actionable insights for your next flight—and every flight after that. Plan to attend the latest addition to our Chart Clinic Confidential series!

Directions: You will receive a confirmation email within 24 hours of the webinar from Mike Pound (webinars@jeppesen.com). That email will contain your unique link to the webinar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
